Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am	I'm trying to	But	Because	Which makes me feel
------	---------------	-----	---------	---------------------

PS-1 ? PocketSmart AI Customer Problem Statement

I am a budget-conscious user planning a home interior, party, or jewelry purchase. I'm trying to plan my purchase and make suitable choices within a defined budget. But there are many products, services, price ranges, and platforms to compare. Because I need personalized recommendations based on my budget, preferences, occasion, and context, it is difficult to decide efficiently. This makes me feel overwhelmed by the available choices and concerned about overspending.

Customer: Budget-conscious user

Need: Personalized, budget-based recommendations for home interiors, parties and jewelry.

Solution context: PocketSmart AI uses AI recommendations to help users plan within their budget.
